Dear Sir:

Pursuant to 37 CFR 1.56, the attention of the Patent and Trademark Office is hereby directed to the references listed on the attached Form PTO-1449. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom.

Copies of the cited documents are enclosed.

Two foreign patent documents with full English language translations are provided. Both patent documents were previously cited, but without the translations, which were subsequently obtained. Additionally, U.S. Application Serial No. US 2002/0056236 is cited. That particular application is involved in an interference, U.S. Interference No. 105,151, with U.S. Patent No. 6,330,763, i.e., the patent that issued from the parent application (*see*, U.S. Application No. 09/394,796) to the present case. The applicants direct the examiner's attention to U.S. Interference No. 105,151. The applicants have filed a request for adverse judgment in that interference, on the belief that prior art raised by the other party to the interference (U.S. Application No. 10/039,381), renders the count invalid as to both parties, and thus further prosecution of the interference as fruitless. If the examiner would like the applicants to provide copies of any of the interference papers, please contact the below-signed individual.

This statement and PTO-1449 form are submitted after receipt of a first Office Action in the above-identified patent application and, to the applicant's knowledge, before the mailing of a final action or notice of allowance. Accordingly, it is submitted that a fee in the amount of \$180.00 is due in this matter under 37 C.F.R. §1.97(c). The Commissioner is hereby authorized to charge the \$180.00 fee and any additional fees which may be required to Deposit Account No. 13-2855. A duplicate of this paper is enclosed.
